Wanted: Permission to Metal Detect

Hi, we are Katrina and Bryan Bennica, we're respectful local metal detectorists looking for permission to detect private property, (yards, fields or homesteads). We enjoy metal detecting as a hobby and always take good care to respect the land. We metal detect for the love of history. Our goal is to uncover and learn about pieces of history that may be hidden beneath the surface "Because history isn't just in books -- it's still in the ground."

We dig neat plugs. Remove all the trash that we find and leave the property like we found it. We would be happy to share any interesting finds with you, and of course if there's something you would like to keep it would be yours. We also have extra metal detectors available, you're welcome to join us if you're interested--it can be fun and a fascinating way to explore the history of your land together.

We can provide a Metal Detecting Waiver and Release of Liability Form upon request.

If you're open to this, we'd be happy to discuss any conditions that you prefer, including dates, times or areas to avoid. Thank you for considering this request. We would treat your property with the utmost respect, carefully replace any soil or grass, and remove any trash found.

We truly appreciate your condideration and would be grateful for your permission.

"Join us as we uncover and share the history hiding under our feet and uncover the small pieces of history time forgot."

Sincerely, Katrina and Bryan Bennica

Perfect Gift For the Angler!

The STREAM & LAKE MAP OF NEW ENGLAND resembles another map--known to Pennsylvania anglers as the "Lost Stream Map."

It was completed in 1965 after a 30 year effort by Howard Higbee, a former Penn State Professor.

Professor Higbee painstakingly plotted by hand, the location of 45,000 miles of streams onto the map. It sold extremely well - until the printer declared bankruptcy and hauled Higbee's work to the landfill.

But reprints were impossible because the maps were printed in non-photographic blue. Higbee was even offered $400 for one of his last maps. And state agencies were forced to keep their copies under lock and key.

Then, at the age of 91, Howard Higbee's dream came true. Computers made it possible to reprint the map.

Then the STREAM & LAKE MAP OF NEW ENGLAND was created.

Stream & Lake Map of New England (CT, MA, VT, NH, RI)

Why every angler and boater needs this map

Professor Higbee's® Stream & Lake Map of New England is the first and only highly detailed map of its kind. The 3-foot-by-4-foot New England map shows 36,000 miles of streams plus lakes in Connecticut, Massachusetts, Vermont, New Hampshire, and Rhode Island.
