## *Consider Asking Yourself The Following Question:*

**By B.L. -- A Long-term Resident of North Haven with 58 Years of Community Experience**

When solar panels need to be temporarily removed to repair a roof leak or replace the roof, what is the typical cost for removal and reinstallation? Can quotes be obtained directly from the original installer? Additionally, is there a list of licensed contractors who are authorized to perform this work?

Are monthly payment plans available for these services? Finally, does the town require a permit for the removal and reinstallation of solar panels?
