$4,000 Educational Grants Available to CT Women

Connecticut's 28 chapters of PEO International, the women's philanthropic educational organization, seek a "few good women" interested in opening doors to more opportunities by completing their education. PEO offers grants, scholarships and loans to women at various levels of their educational goals. The Program for Continuing Education (PCE) provides needs-based grants to deserving women who may have had to delay completing their education for at least 24 months.

In 2023, PEO's Program for Continuing Education celebrated 50 years awarding grants to women throughout the country and Canada. 13 fortunate women in Connecticut won PCE grants totaling more than $32,000. Any qualified woman in the State may apply for a grant to complete a bachelor's or master's degree; as well as professional certificates. The certificate can be in numerous occupations from dentistry, medicine, to social work, as long as it is from an accredited organization.

In order to qualify for a grant, the prospective candidate should review grant requirements. Go to the international website (www.peointernational.org) Educational Support, Program for Continuing Education, Eligibility/Application Process. Applications will be considered for spring semester at most educational institutions, provided all deadlines are met.

After reviewing the requirements, the applicant is welcome to contact: cgwpeo23@gmail.com.

Attention: Parents / Guardian / Educator / Agency Worker

I am a retired New York City high school guidance counselor. With the help of students and adults, I have developed and facilitated a program known as the "Anger Management Power (A.M.P.) Program." I am the author of the book entitled, *Peace the Other Side of Anger* (2011), based on this program for parents/guardians and professionals helping youngsters handle anger in positive ways.

I'm in the process of revising this book by adding additional chapters on the pandemic, gun violence, and social media -- all of which had not existed or have the impact they have today. I value the opinion of teenagers, and find their perceptions can be helpful. I have created three surveys on these subjects to be completed by teens. No names of participants will be used. The only identifying information will be participants' gender, age and grade.

You can access these surveys on the link and/or QR Code shown. If acceptable to you, have your teen(s) complete and submit using the same link and/or QR Code. https://forms.gle/aa4jCEXfdUxvNixm6
