BULLETIN

Behind the Headline

By Emilee Rice

After calling my mom last Friday to discuss the state of politics in Texas, my home state, I climbed up the steps of City Hall to interview early voters on their thoughts on the upcoming midterm election. Going up to voters really required me to ignore the 'stranger danger' mentality instilled in me as a child. Most of the people I approached were not early voters. Many were apparently there simply to file paperwork, and, in fact, several were not registered to vote at all. After about 30 minutes, I found a voter willing to talk with me. Not everyone I talked to was overjoyed by my presence — some used more vulgar language than others — but some people were excited to have someone listen to the issues they care about.

Read "Early voters back Lamont, express disillusionment with leaders" on page 6.

This Day in Yale History, 1979

October 29, 1979 / Women convene to discuss issues

Over 250 female faculty members, students and alumnae gather at a conference today titled "Women and Yale: Transitions." The event includes panel presentations as well as worskshops and smaller discussion sections. Topics focus on the reform of male-dominated spaces and funding for women's programs at Yale.
