Clean Energy Task Force Looking for New Members

North Haven: Are you concerned about our changing climate? Interested in helping North Haven residents, businesses, and our town government save energy and lower utility bills?

Want to help us to move to a clean energy economy? GREAT! You are just who we've been hoping would join us on the North Haven Clean Energy Task Force because we are looking for more members.

As a town-sponsored task force, we work closely with the town and residents to promote and provide opportunities for energy conservation and clean energy. We have had many successful campaigns, including promoting Home Energy Solutions energy assessments, with 40% of North Haven residents participating. We have also led campaigns to educate residents about home solar options and heat pumps, and connected them with local vendors to install these clean energy technologies so they can realize savings immediately. There is more work to be done!

Even with the clean energy setbacks at the federal level, there are many energy efficiency and clean energy rebates and services available in Connecticut.

To find out more and get involved, please contact Kenny Foscue at kfosc@snet.net or call (203) 589-1512.
