Daytime Gardeners Award Scholarship to Luke Nugent

Pictured (L-R): Daytime Gardeners Brenda Howlett, Sally Brockett, present a scholarship award to Luke Nugent.

North Haven: The Daytime Gardeners selected Luke Nugent as the winner of their $500 Merit Scholarship Award. The scholarship committee presented Luke with the check at the North Haven Library West Garden which is one of the town gardens designed and maintained by the club. Luke is entering his senior year at University of New Hampshire, College of Life Sciences and Agriculture (COLSA) where he is studying Natural Resources and The Environment (NREN). He is passionate about forest research and academia and is currently working on a project with potential to be published in a scientific journal.

Luke wants to attend graduate school at UNH and conduct a thesis on forest pathogens, collaborating with and accepting guidance from those more knowledgeable than him to improve our scientific understanding of forests. From what he has learned, he believes that forests are an evolved, dynamic, ecological wonder that he would be honored to leave a lasting impression on through his work in science.

Since April 2023, Luke has continuously pursued forest research. His project is to analyze the effectiveness of treatments in suppressing hemlock woolly adelgid and elongate hemlock scale, two invasive insects that threaten hemlock-dominated forests. Starting in December 2023, Luke conducted literature reviews, developed methods, conducted field surveys and data entry, and initiated data analysis, His goal is to complete this project for publication in a scientific journal.

On July 22nd, Luke will present a program for the Daytime Gardeners about his work and experiences with Forest Ecology. This program is open to the public and will be held at the North Haven Recreation Center, 7 Linsley Street, North Haven from 11:00 AM to noon. Please register by calling 203-239-1557. A guest donation of $5.00 is appreciated. Photo by Mary Anne Hardy
